

AMENDMENTS TO THE SPECIFICATION

At page 11, please replace the paragraph starting from line 24 with the following rewritten paragraph:

From the results shown in Examples 1 and 2, a major neutralizing region for the autoantibodies used from the three patients was confirmed to be a region located on the terminus side of the Q449X and on the N-terminus side from the W688X, that is, a region from a Cys-rich region to a spacer region which is between the Q449X and the ~~X688X~~ W688X.
